## JNO. C. VICK MILLING FEED, GRAIN

The reason home ground meal is giving such satisfaction to all who have tried it is corn is classified into four reductions, viz: Corn starch, corn flour, bolted meal, and bran. Corn starch and corn flour is the nutritious part of the grain which is extracted. Bolted meal is the flint part. Home ground meal you get it all and get it fresh. We make our own chops from best shelled corn in car lots. The advantage in freshness and purity is obvious without further comment.

Bring your corn and have it ground into chops or meal, and let me sell you feed stuff.

### NEW CURRENCY ACT.

#### Secretary Cortelyou Makes Public Circular of Instructions.

Washington, June 12.—Secretary Cortelyou has made public the treasury department circular carrying into effect the new currency act approved May 30 last.

Banks occupying contiguous territory may organize currency associations providing there are at least ten banks in each association, with a minimum aggregate capital and surplus of at least \$5,000,000, while individual banks must have an unimpaired capital and surplus of not less

GEORGE B. CORTELYOU.

than 20 per cent. Any members of such association without standing circulating notes of not less than 40 per cent of its capital may obtain additional circulating notes under section 1 of the act.

A national bank of the same standing as its capital and surplus, but not a member of the association, may obtain additional circulation under section 3 of the act. The names of the associations must be indicative of the locality and an association may not style itself the "First National Currency association."

#### Will Affect Kentucky More.

Louisville, June 12.—Kentucky will probably suffer to a greater extent by the passage of the anti-race track bills in New York than will that state.

Many wealthy easterners own large farms in the bluegrass region and operate hundreds of breeding plants there. Millions of dollars are invested in these plants and a small army of men is employed. The thoroughbreds raised on the places of these eastern capitalists are culled over each year and the best of them retained and raced exclusively on the tracks near the metropolis.

The killing of the racing game, which this operation of the laws passed by the New York senate will probably do, will cause many if not all of these wealthy New Yorkers to abandon the sport entirely. This means the closing up of the big breeding establishments, the throwing out of employment of more than 5,000 laborers and the loss of many millions each year to the bluegrass section of Kentucky. In Fayette, the smallest of the bluegrass counties, there are more than 3,500 stallions and brood mares.

#### ANOTHER LEVEE BREAKS.

Several Thousand Acres of Fine Land Have Been Inundated.

Shreveport, June 12.—The levee at Creighton in Red River parish, three miles from East Point, broke Friday morning and a crevasse 400 feet wide formed at once. Several thousand acres of the finest land in the valley are inundated and crops ruined. Four hundred feet of railroad track was washed out and train service stopped.

#### Suffocated in Trunk.

Fall River, Mass., June 12.—After a search the bodies of Joseph and Andre Beaudry, eight and five years respectively, were found locked in a trunk in which the children are supposed to have hidden themselves in order to escape going to school. The trunk has a spring lock. They died from suffocation. The interior of the trunk and clothing and bodies of the children gave evidence of the struggles which the little ones had made to escape.

#### Tragic Incident.

Reval, Russia, June 12.—A tragic incident occurred here. A school mistress committed suicide two days before the meeting of King Edward and Emperor Nicholas. She was formerly connected with the revolutionists, who finding she would be admitted to the platform with the school children to welcome the emperor on his arrival ordered her to commit a "terrorist act." It is supposed she had long repented of her revolutionary ideas and she committed suicide to escape the vengeance of the terrorists.

#### Aged Lady Strangles.

Greenville, O., June 12.—While drinking water Mrs. Ann Campbell, seventy-three years old, strangled to death.

#### Gashes Woman's Throat and Own.

Altoona, Pa., June 12.—Robert Deny badly slashed Mrs. Sarah Hoover's throat and fatally cut his own.

BRYAN, TEXAS, JUNE 13, 1908.

Since Calcasieu went dry Beaumont expects an increase of its Louisiana business.

Fame and fortune are awaiting the man who will discover and apply a practicable plane of preventing destructive floods.

It is a fact that of the \$1,025,000,000 expended by the first session of the sixtieth congress about 70 per cent was an account of past wars or imaginary wars of the future.

Nearly all women abhor lizards, yet many of them fondle birds, which scientists say are nothing but lizards that have evolved feathers and wings during countless millenniums.

The nomination of Taft is now conceded by his opponents and they are talking about the candidates for the vice presidency. There is a strong probability that Hughes will get it if he will take it.

Of course the politicians are not taking kindly to the proposed nomination of John Mitchell as Bryan's running mate. Nobody ever expected they would. It don't matter, so long as the people are pleased.

A carload of prairie dogs was shipped from West Texas to the East a few days ago. The people of West Texas have been trying for years to get rid of the prairie marmot, which destroys the grass in the vicinity of its "towns." They have been poisoned by the million, but are still numerous. The Eastern people are welcome to all they can catch and then some more.

### MEETING OF CURRENCY COMMISSION.

New York, June 11.—The sub-committee of the new currency commission, recently authorized by act of congress, began a meeting today at the Praxa hotel. The membership of the commission is composed of Senators Burrows, Hale, Knox, Daniel, Aldrich, Allison, Teller, Money and Bailey, and Representatives Overstreet of Indiana, Vreeland of New York, Burton of Ohio, Weeks of Massachusetts, Bonyne of Colorado, Smith of California, Padgett of Tennessee, Burgess of Texas and Pujo of Louisiana.

As a rebuttal of the charge of extravagance in spending a billion and a quarter of a million in a single term of congress, the Republicans are prepared to prove that they saved \$3,000 by installing a coffee-roaster at Panama.

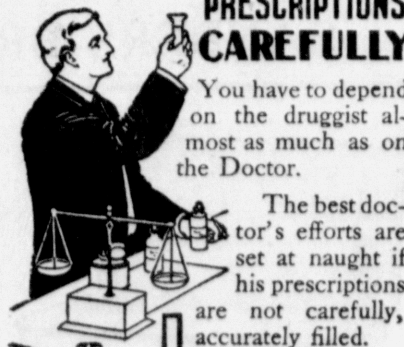

For a long time there has been a strong feeling against foreigners, and especially against Americans in Mexico, and indications are that it is now approaching the acute stage. These government, however, is friendly to foreign investors, and has heretofore prevented anti-American outbreaks.

The best news of the week is the return to work of many who have been laid off during the industrial depression, which began last fall—35,000 in New England mills, 17,000 in St. Louis factories and mercantile establishments, and other large numbers in various sections of the country. It now seems likely that before the end of the year, the wheels of industry will be whirling as briskly as ever.

Mr. Steve N. Batson, after a confinement of more than twelve years, is again a free man and happily united with his family, who live near Normangee. His pardon from the governor reached him Monday, when he immediately communicated with the members of his family by telephone, and his son went after him at once, returning Wednesday.—Madisonville Meteor.

Fifty years ago in this month the first Atlantic cable was laid and messages exchanged between Queen Victoria and President Buchanan. The writer, then a sophomore in the State university at Knoxville, Tenn., remembers the special number of Harper's Weekly in which it was fully described and illustrated. Sections of the cable were sold as gold mounted watch charms, brooches, and in other forms. It was a great event and its consequences have been wonderful. Now there are enough submarine cables to reach around the earth eight times.

### BIG BLAZE IN PACKERY.

Kansas City Establishment Lost Considerable.

#### QUARTER MILLION FIRE.

Mammoth Enterprise of Nelson Morris & Co. Narrowly Escapes Complete Destruction Owing to It Being Surrounded by Water.

Kansas City, June 12.—Fire that started before daylight Friday in the \$1,500,000 packing plant of Nelson Morris & Co., had by 9 o'clock progressed so far that it was feared the entire establishment would be destroyed. At that hour dynamite was being used in an endeavor to stop the flames. Two men were killed and another perhaps fatally injured. The plant is in the flood district and entirely surrounded by water.

The fire was started by an explosion in the chemical department and the flames spread rapidly because of the flood the firemen were unable to reach nearer than two blocks of the building with their apparatus. Aid was asked of the Missouri side, but the engines from there could not get across the flooded district.

The sausage department was the first to go. The contents of this building furnished much inflammable material for the flames, and when the first streams were turned upon the fire, this section of the plant was doomed. Telephone communication with the scene was impossible, wire service having been destroyed by the flood.

The Nelson Morris plant is situated near the Riverside section in the fork of Kaw river, just north of the stock yards, on a low lying piece of ground. The plant was built three years ago and is one of the most complete in this country. For three days previous to the fire, or since the worst of the present flood began, there had been no killing at the plant, operations in all departments being practically at a standstill. Men had been kept at work all day and night trying to have the meats on hand, and in pumping water from the basement.

The fire was confined to the cold storage building and meat house, both being destroyed. Loss is about \$250,000.

#### KNOX AND HUGHES.

Friends of Both Candidates at Chicago In Their Interest.

Chicago, June 12.—The candidacy of Senator Knox of Pennsylvania was given an impetus Thursday on the arrival at the Knox headquarters of General H. Hapgood, Edward J. Krause and Edwin S. Kinsley of Pennsylvania.

"Stick," said General Hapgood in reply to a question whether or not his candidate intends to withdraw. "Well, I should stay we stick, and the tighter and closer we stick the better are our chances. We will not consider second place. Why should we? Nobody has got it, and it's anybody's fight right now. Don't forget that."

General E. A. McAlpin of New York arrived Thursday bringing with him strong cases of optimism for the Hughes boom. He professed himself as confident that the New York governor has a most excellent chance of nomination. General McAlpin said: "All talk about second place for Hughes is all tommyrot. It's Hughes with us, first, last and then some."

#### Significant Roses.

Paris, June 12.—A maid servant in the employ of Major Alfred Dreyfus was Thursday confronted with Louis Gregori, the man who fired two shots at the major in the Pantheon June 4. She failed, however, to recognize Gregori as the man, believed to have been demented, who a month ago called at the major's house and left a bunch of roses, saying that they would soon be stained with blood. Major Dreyfus also confronted Gregori and declared he had nothing to add to the deposition he had already made. Gregori repeated that he had not intended to kill Dreyfus, but Dreyfusism. He announced that he reserved his defense until the trial.

#### Pursuing Yaquis.

Hermosillo, Mex., June 12.—Four thousand Mexican soldiers under the personal command of General Lorenzo Torres are in hot pursuit of the Yaqui Indians. All negotiations looking toward the signing of the peace treaty were suddenly broken off Thursday. The Yaquis insisted on retaining their arms and ammunition after having acceded every other stipulation of the Mexican government. The Mexican officials stood steadfast and the Yaqui leaders withdrew from the conference. Immediately orders were dispatched to Mexican troops in the field to resume hostilities.

#### Large Theft Alleged.

Los Angeles, Cal., June 12.—Accused of stealing \$25,000 from the Mexican government, Salvadore Malacore, formerly collector of internal revenue for the state of Guanajuato, at Leon, was arrested here by Federal authorities. For more than a year Malacore is alleged to have been slding at this city, and is said under an assumed name that he has been prominent among local Mexican revolutionists. He will be held until officers arrive from Mexico. His wife intends to fight extradition.

#### Wins by Narrow Margin.

Canton, Miss., June 12.—O. S. Miller defeated S. C. McAllister for mayor by three majority.

#### Fatal Throw.

Colorado, Tex., June 12.—Claude Sartain was thrown by a horse near here. He died.

### BILLIK STILL LIVES.

Judge Landis Grants Indefinite Stay of Execution.

Chicago, June 12.—Judge Landis granted the appeal of Herman Billik and his execution is indefinitely postponed.

Although it had been agreed between Judge Landis of the United States district court and the sheriff of Cook county, that the execution of Herman Billik, the Bohemian fortune teller, would not take place until after court passed upon the right of Billik to appeal from the decision of Judge Landis in refusing to grant a writ of habeas corpus, a tremendous crowd gathered around the jail at an early hour Friday. A detail of police was constantly employed keeping them on the move.

Herman Billik was tried and convicted of the poisoning and death of Mary Vrzal, twenty-two years of age, and accused of similarly causing the death of five other members of the Vrzal family. Mrs. Rose Vrzal, mother of Mary Vrzal, committed suicide, when she was arrested as an accomplice of Billik. The deaths in the Vrzal family all occurred within a period of two years.

The testimony at the trial, which was held before Judge Barnes, showed Billik went to the Vrzal residence with alleged charms and the remarkable series of deaths followed. The alleged motive was to secure life insurance money in each case, the amounts varying from \$100 to \$625. As the result of the trial Billik's punishment was fixed at death. The first date for the hanging was fixed for Oct. 11, 1907, and two other dates, Nov. 8, 1907 and April 29, 1908. Postponements in each case were to permit further investigation, it having been charged that Billik's conviction was the result of perjured testimony, and the suggestion of intimidation on the part of prosecuting attorneys and police. This charge was made through the pulpit of St. Mary's church by Rev. F. J. O'Callahan, superior of the Paulist fathers of this city.

A series of remarkable mass meetings were held Thursday, addressed by Father O'Callahan, Jerry Vrzal and Edna Billik, the fortune teller's little daughter. The mass meetings resulted at midnight in an appeal to Governor Deneen by a volunteer delegation, who paid its own fares to Springfield in hope of a personal talk with the governor which might prove effective in at least obtaining a commutation for Billik to life imprisonment.

#### Rumored Railroad Purchase.

Fort Worth, June 12.—A report is circulating in railroad offices that the Frisco railroad has bought up the Stephenville, North and South railroad, eighty miles long, and which already is a feeder to the Frisco. The line runs from Stephenville to Hamilton and has been in operation since February. It was constructed by citizens of those two towns. The probable absorption of the road by Frisco has been rumored for some time. Frisco officials neither deny or affirm buying the line.

#### Practically Decapitates Himself.

Cleveland, O., June 12.—Returning from a dance with his wife and four children Joseph Paroluski committed suicide by practically decapitating himself with a razor.

As the family reached their home Paroluski quarreled with his wife, drew the razor and attacked the woman, who fled with the children. The frenzied man was not fleet enough to overtake them. Then with a powerful sweep of the keen edged weapon he slashed his throat. The stroke carried the blade clear through to the inner skin. When the police arrived Paroluski's head merely dangled from the body.

#### Textbooks Adopted.

Austin, June 12.—The state department of education is preparing a statement to be distributed among teachers and school people all over the state showing the textbooks that were adopted by the textbook board. This list will embrace all books adopted except the contract made for the geography, which was canceled by the board. This list of textbooks is for use in all schools of the state.

#### Enforcement Called For.

Albany, N. Y., June 12.—In a letter addressed to the various sheriffs of the state Governor Hughes called upon those officers to see that the provisions of the Agnew-Hart anti-race track gambling laws are enforced.

#### Kill and Are Killed.

Tiflis, June 12.—Ten robbers, heavily armed, invaded the customs office here and killed the official in charge and four assistants, decamping with \$12,000. The police pursued the robbers, killing three of them, but the others escaped.

#### Lyon Delegates Win.

Chicago, June 12.—National Republican committee decided in favor of the delegates in all seven Texas districts Friday morning. This gives the Taft people a clean sweep of the state on temporary roll call.

#### Municipal Ownership Voted Down.

Fort Worth, June 12.—After a warm discussion commission voted down municipal ownership of electric light plant.

#### Leaves Widow and Ten Children.

Detroit, Tex., June 12.—Tom Hulen a liveryman, committed suicide by taking carbolic acid. He leaves a widow and ten children.

#### Considerable Damage by Fire.

Waco, June 12.—Fire, originating in the coffee roasting department of the Cooper Wholesale Grocery company did \$15,000 damage.

#### RECESSED UNTIL WEDNESDAY.

The Investigation at College Was Discontinued Yesterday Until Wednesday—Attorneys Busy.

The investigation at College, following a night session Thursday night and a forenoon session yesterday, was adjourned until next Wednesday, to be resumed at the College on that date. The attorneys, Judge Scott and Mr. Summers, each had important business at home demanding attention, and the members of the board felt if they returned to their homes at all, some of them being quite distant, they should take a little time for attention to private business.

Subsequent to the examination of T. E. Holloway, whose testimony relating to the seniors being advised to present the petition for the resignation of the President was mentioned in The Eagle yesterday, other members of the Senior class testified in denial of statements of Holloway, and alleged that F. S. Puckett, said by Holloway to have given the advice, came to the meeting on another mission after the petition had been prepared.

The indications are that the investigation has only fairly begun, and that much time will be required to examine all the witnesses likely to be before the body. The scope of the investigation, as ordered by the board, covers conditions at College generally, and provides that the board may make such inquiries as it desires after all who choose have accepted the invitation to come before the board and make known any grievances or information they may have.

## CAR DYNAMITED.

### Seven People Are Hurt, None Fatally, However.

Cleveland, O., June 11.—Police of Euclid Heights, a suburb in which a Municipal Traction car company was blown up by dynamite at an early hour Thursday morning, are bending every effort to run down to miscreants who placed the explosive on the street car track. Seven passengers were injured, none fatally, as the result of the explosion.

The car was running slowly when the front wheels struck the explosive. The explosion that followed was heard a mile away. Windows were shattered and seats twisted. The floor of the car was lifted upward, throwing the passengers into a panic-stricken heap on the floor. The slow speed of the car saved it from going over a steep embankment along the road. The explosion lifted it clear to within a foot of the curb.

### DYNAMITE BOMB EXPLODES.

Building Badly Wrecked, but Italian Occupants Uninjured.

New Orleans, June 11.—With a report that could be heard for several blocks a dynamite bomb exploded early Thursday in front of the dry goods store of Joseph Sperio, an Italian, at Hospital and Decatur streets, badly wrecking the building. Sperio, his wife and four small children were asleep in the building, but none were injured.

Sperio said he knows who threw the bomb, but told the police he was afraid to give the name. For several months Sperio has been receiving threatening letters telling him that unless he would give up \$1,000 he would regret it.

### SIXTY MILES PER HOUR.

Fort Worth, June 11.—A small tornado struck North Fort Worth Thursday morning, the wind blowing sixty miles per hour. Trees were blown down, signs torn from buildings and small houses unroofed. Smokestacks of several factories were carried away. No serious injuries are reported. The tornado came just as the home industry parade was forming and caused a big scare.

A heavy rain fell Thursday morning in the Panhandle and west Texas towns. Childress, Wichita Falls, Amarillo and Abilene report a strong wind and rain, which did slight damage but set farmers back in their work.
